

water and wastewater servicing strategies

ADW Johnson has prepared numerous water and waste water servicing strategies on the Central Coast, Hunter region and regional NSW.

These wastewater servicing strategies range from dual occupancies to 5,000 lot estates for residential, commercial and industrial developments. **ADW Johnson** has experience in providing strategies for both existing developments and green field areas with the assessment of existing infrastructure, proposed loadings, the use of pumping stations and rising mains.

Projects

Catherine Hill Bay and Wallarah Peninsula

Gowrie Links Estate, Singleton

Magenta Shores, The Entrance North

Maryland No. 2 Catchment, Fletcher

Narara Valley Carrier, Narara

3A Major Catchment, Swansea
