Working within a team, you will primarily be involved in undertaking engineering aspects of projects, from concept through to delivery.

It is anticipated you would deal directly with project team members and approval agencies and clients with limited supervision.

You will be required to review and provide technical input into plans, prepare reports, contracts, technical specifications and schedules.

SKILLS & EXPERIENCE

To apply for this role you will:

- Possess a Bachelor of Engineering (Civil) or equivalent.
- Possess excellent communication skills, particularly in the preparation and reviewing of drawings, reports, contracts and specifications.
- Some experience in engineering software, such as 12D, CAD, MUSIC and XP Rafts would well regarded.
- Some experience in a local consultancy environment would well regarded.
- Understand local engineering standards and have the ability to apply them.

HOW TO APPLY

To apply for this position, please forward your resume and transcript to: coast@adwjohnson.com.au. Note due to the large volumes of applications we received it may not be possible to respond to all applications. Successful candidates will be contacted for an interview.
